HANDLING

* Appliance suitability depends on Inverter and Battery capacity.

Experience a paradigm shift in commercial power solutions with Okaya's POWER MAX Series, a wide range of high VA UPS. Tailored for demanding applications in dental chairs, petrol pumps, hotels, and offices, this series embodies the pinnacle of performance and reliability. Get ready for an eco-friendly, hassle-free power backup solution that ensures uninterrupted business operations.

SALIENT FEATURES

- **Specially Designed 'EI' Core** with improved magnetic's to reduce power loss and save energy.
- **Super Intelli Charge** technology, smart process (FCT/CCCV Topology) are employed for ensuring optimum battery backup and enhancing battery service life.
- **Superior Load Handling**, with better peak current handling so that UPS system runs the higher load appliances without any interruption.
- **Dual Thermal Protection** is two-stage thermal protection against over temperatures to enhance overall system life and durability.
- **Overload Protection** against running over-current, which could cause overheating of the protected equipment or circuit.
- **Short-Circuit Protection** for electronics against eventualities of accidental connection of mains supply to the output.
- **Reverse Polarity Protection** to protect the device in case battery connection polarity is reversed.
- **Battery Deep Discharge Protection** for enhanced battery life.

INTRODUCING THE HIGH CAPACITY UPS RANGE:

POWER MAX Series: Based on True Sine Wave (TSW) technology for running your business essentials without any power interruption.

PRODUCT SERIES	TECHNOLOGY	MODEL NO. (AS PER BIS)	VA	VOLT	WARRANTY (MONTHS)	PRODUCT DIMENSION (LXBXH)
Power Max	True Sine Wave	TSW 2550 24V	2000	24	24	190 x 302.9 x 336.3
Power Max	True Sine Wave	TSW 3050 24V	2500	24	24	253.99 x 436.15 x 374.5
Power Max	True Sine Wave	TSW 3750 36V	3200	36	24	253.99 x 436.15 x 374.5
Power Max	True Sine Wave	TSW 4250 48V	3700	48	24	253.99 x 436.15 x 374.5
Power Max	True Sine Wave	TSW 5750 48V	5200	48	24	253.99 x 436.15 x 374.5

High-capacity POWER MAX UPS can easily run AC's, dental chairs, deep freezers and could power complete house, office and a petrol pump. These devices are designed to run heavy loads and installed with multiple batteries based on their design.

WHY CHOOSE OKAYA?

- Strong presence across power backup segments
- Global reach over 45 countries
- 4 Decades of Manufacturing Expertise
- 3 Manufacturing Plants and 1 Recycling Plant
- PAN India Onsite Support Network
- Biggest Service Infrastructure in Power Industry
- Served over 110Mn+ Customers
